Indices of Multiple Deprivation (IMD) Overall (All Ages) - Rank for all single tier and county authorities (quantiles of all English single tier and county councils)

Income Deprivation Affecting Older People Index (IDAOP) - Rank for all single tier and county authorities (2015)

Income Deprivation Affecting Children Index (IDAC) - Rank for all single tier and county authorities (2015)

[Key: Lower rank is more deprived]

Council Plan 2018-2022 Priority Area: Health & Wellbeing

- > Reducing health inequalities amongst the county's communities
- > Tackling the top 10 health risks in partnership with citizens and health and social care colleagues

National Averages - The latest available figures from nationally published data, these are typically updated 6 months after the end of the financial year.

Trends: The trend arrow identifies if the indicator has increased or decreased by at least 2% since the previous quarters report. An arrow that is sideways represents a stable performance level that is not greater than 2% in either direction.

Performance against Target: The chart on the right shows how the indicators on this page are performing against target, the 4 categories are;

No Tolerance: Indicators where it is, depending on viewpoint, positive to reduce or increase performance.

Below: Performing worse than the target set.

Above: Performing on or better than the target set.

No Target: No target in place, or it isn't appropriate to set a target for this indicator.

Depression & Recorded Hypertension Prevalence: Recorded prevalence captures all known diagnoses in the population. However there will likely be a proportion of the population undiagnosed. Therefore a higher recorded prevalence may reflect better recording and diagnosis rather than a true increase in total population prevalence. Estimates have been produced which can then highlight the potential undiagnosed population but are based on modelled estimates and are not updated on an annual basis.

Council Plan 2018-2022 Priority Area: Education & Skills

Northamptonshire ◇ National Average | Target

- > Narrowing the gap in achievement for vulnerable children and young people
- > Improving education progress attainment and skills at all key stages and throughout adulthood

National Averages - The latest available figures from nationally published data, these are typically updated 6 months after the end of the financial year.

Trends: The trend arrow identifies if the indicator has increased or decreased by at least 2% since the previous quarters report. An arrow that is sideways represents a stable performance level that is not greater than 2% in either direction.

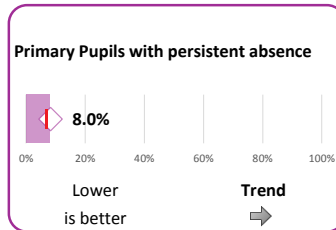

Performance against Target: The chart on the right shows how the indicators on this page are performing against target, the 4 categories are;
